

PRODUCT DATA SHEET

Miniplast Ein-Shemer ACS Ltd. Sterile, Disposable PS Centrifuge Tube Miniplast Cat. No. 35015-xx

1. Description/Specification

- 1.1 Description: Disposable PS centrifuge tube, sterile
- 1.2 Dimensions:
 - 1.2.1 Tube: Ø 19.5 mm; H 120.0 mm
 - 1.2.2 Tube with cap: Ø 22.5 mm; H 123.5 mm
- 1.3 Volume: 15 ml
- 1.4 Material:
 - 1.4.1 Tube: Polystyrene (PS), free from heavy metal
 - 1.4.2 Cap: High Density Polyethylene (HDPE)
- 1.5 Color:
 - 1.5.1 Tube: transparent (crystal clear)
 - 1.5.2 Printing on tube: white (graduation, writing area)
 - 1.5.3 Cap: blue
 - 1.5.3.1 Other colors available with minimum ordering quantities
- 1.6 Sterilization: by Gamma ray; SAL 10^{-3}
- 1.7 Quality control: Testing of various characteristics in accordance with the valid specification
- 1.8 Other information: Recommended for single use only

2. Features

- 2.1 Basic features: Hydrophobic, conical/rounded bottom, printed graduation and writing area, screw cap, leak-resistant design
- 2.2 Cleanliness: DNase-free, RNase-free, non-pyrogenic, non-cytotoxic
- 2.3 Temperature range:
 - 2.3.1 Tube: +4° C to +80°C
 - 2.3.2 Cap: -80°C to +121°C
- 2.4 Centrifugation, max: 6036 RCF
- 2.5 Chemical resistance: See website:
www.miniplast.co.il/about.php/downloads/quality_assurance
- 2.6 Shelf life: 3 years from month of production

3. Packaging: According to clients' requirements and minimum quantities
